TECHNICAL SESSION

ZILKER 3-4

SESSION 3

2:00 PM – 2:30 PM

OPPORTUNITIES FOR CIP SEGMENTAL CONSTRUCTION WITH FORM TRAVELERS
JEFF MEHLE, McNARY BERGERON & JOHANNESSEN

The use of form travelers for cast-in-place segmental construction has seen a renaissance of use lately. This presentation will discuss the opportunities and advantages of cast-in-place segmental construction, plus what is required and method of construction with form travelers. Presentation of recent projects will help illustrate the opportunities including the US 54 over the Canadian River in rural New Mexico, Fast Lanes Gllot Interchange over rail and roads in Tel Aviv, Israel and supplementing conventional construction for the LAX Automated People Mover P3 project.
